## AUSTRALIAN AMPHIBIOUS FORCES OPEN RECONQUEST OF BORNEO ISLAND; SEIZE 4 BEACHHEADS AND ADVANCE INLAND

### Mark Stride to 200 Miles to Northwest of Tarakan Invasion

### ENEMY IS SURPRISED

### Land Defense Installations of "Japs" Pounded Out of Existence

(By International News Service) MANILA, June 11—Australian amphibious forces, personally directed by General MacArthur, opened the reconquest of the Island of Borneo today, advancing inland after seizing four beachheads in the Brunel Bay area.

Marking a stride of 200 miles or more to the northwest of the stepping-stone invasion of Tarakan, which Australian and Dutch troops secured earlier, the Allied forces went ashore on Labuan island at Broekton, Muara island, and on the Borneo mainland at Hamilton Point which is opposite Labuan, apparently surprising the Japs.

MacArthur, together with Air Forces General Kenney and Rear Admiral Forrest Royal, accompanied the assault waves into the beach.

MacArthur reported that the Japs' land defense installations had been pounded out of existence by the devastating 60-day aerial bombardment.

Within a matter of hours after they went ashore on Labuan island 15 miles southeast of Singapore, and at the entrance to strategic Brunel Bay, the Aussies captured town of Victoria and also took one of the enemy airfields on the island. In addition, they were advancing on another 'drome midway between Muara and Broekton.

The Australians late Sunday and early Monday were reported, gaining steadily. At some points in the Brunel sector they had pushed over 1,000 yards, exploiting the initial advantage at all fronts in the Brunel-Victoria Bay areas.

Rough estimates placed the strength of the Brunel garrison between 2,000 and 5,000 Japs, but the exact number was unknown because of frequent shifting of enemy troops.

The one truck owned by Greenwood Dairies was driven by James Clyde Collins, of Parkland. Damage to this was approximately \$300, and the 240 bottles of milk destroyed were in this vehicle. The second machine, a caroperated by Angelo Dalessandro, Woodland avenue, South Langhorne, was damaged to the extent of about \$50.

Officer Arner, of Penna. State Police, investigated. Police state that no one was hurt.

## MISS BRIGHT SPEAKS BEFORE CHURCH GROUP

### Probation Officer Tells of The Delinquent Children Brought Into Court

### BLAMES THE HOMES

DOYLESTOWN, June 11—The meeting of the Women's Society of Christian Service of the Methodist Church, here, was featured by an informative and interesting talk by Miss Gertrude Bright, county welfare officer.

Miss Bright brought out the point that many children are brought before the juvenile court because of minor offenses, which could be settled out of court. Many of these children, it was said, come from good homes. This is contrary to the popular belief that broken homes are usually the cause of delinquency.

In some homes, said Miss Bright, the children have too many advantages, and too little understanding.

## COMMUNISM

The present row in the national Communist Political Association might be used to show that even the Communists themselves do not agree on what the word "communism" means.

Misunderstanding about the word is unfortunate. It is no accident, however, for a definite policy of those who work for communism has been to keep the water muddy—to hide their objectives.

Confusion in the American mind is heightened by two beliefs which have little foundation—first, that the word Communism ties in tightly with the Communist Party, which is untrue because some of the most active Communist forces in the United States have no connection with the Party itself; and second, that Communism is essentially synonymous with Russia or the Soviet government.

As a political faith, Communism is an idea and a program, not either a party or a country.

The authors of Communism were Marx and Lenin. Their writings tell exactly what Communism is, what it seeks, and how it operates.

The objective is "dictatorship of the proletariat." In an abstract sense, this means final and complete rule by working people—men and women who work for someone else.

Practically speaking, it is obvious that thirty or forty million people cannot themselves operate a dictatorship—they must work through agents, and that is where the Communists come in. They want to be the bosses of the dictatorship.

The Communist ideal of government is precisely the set-up of the CIO-Political Action Committees (a plan worked out by the nation's No. 1 Communist, Earl Browder). Sidney Hillman, as head of that organization, traded across the conference tables at the Democratic National Convention, and pledged the funds and votes of millions of CIO union members. He purported to be their "representative." But there had been and still is no democratic expression of mass opinion by workers in the CIO ranks—either on who their leaders shall be, or their policy and actions.

The end-result of Communism is a tight dictatorship. Actual voting has nothing to do with it. Argentina, the tightest dictatorship in the Western Hemisphere, boasts universal compulsory balloting. But votes can be regimented, by the process which the PAC is using, or in other ways. Napoleon was "elected" emperor; and so, for that matter, was Hitler "elected" Fuehrer.

Many Americans try to make distinctions between Fascism, Socialism and Communism—an effort which merely confuses their thinking.

The three are different roads to the same objective. German Socialism and Italian Fascism produced dictatorships identical with Russia's Communism, and quite similar to the military dictatorship of Japan.

Churchill's current speeches draw a picture of British Socialism as being headed for precisely the same type of dictatorship.

The only difference between the various faiths is in superficials; essentially all aim at a social revolution in which a group of agitators, self-labeled "friends of the masses," wind up on top of the pile.

All agree in methods. First steps are to destroy or undermine the legislative and judicial branches of gov-

## WHAT OUR BOYS ARE DOING TO WIN THE WAR

1ST BASE AIR DEPOT, Warrenton, England, June 11—V-E day found Herbert W. Vandegrift, of Bristol Pike, Andalusia, Pa., on the job, helping to ready more combat planes and equipment for immediate action wherever they might be needed.

Cpl. Vandegrift, son of Mrs. Carrie Vandegrift, Bristol Pike, Andalusia, Pa., and husband of Mrs. Barbara Vandegrift, Manchester, England, is one of the crack Air Service Command team who pitched in to back the air assaults that helped knock Germany out of the war.

Commending their battle-backing efforts, Brigadier-General Morris Berman, Commanding General of the Base Air Depot Area, Air Service Command, declared: "These soldiers of the Base Air Depot have, since their work began, dispatched 415,000 tons of air corps supplies, assembled and modified 12,000 combat planes, and repaired or overhauled more than 39,000 aircraft engines.

"Every soldier, whatever his job, contributed materially to the magnificent, final result. I commend them, and I know that whatever their next task, they will fulfill it with credit to themselves and their country."

Cpl. Vandegrift has been overseas since October, 1943, and joined the army in December, 1942. He was employed by the Henry L. Disston & Son, Co., Philadelphia, Pa. He attended Bensalem high school.

### A HORSE FOR HALSEY

It's upsetting to learn how  
concerned Tokyo radio commen-  
tators are over the fact that the  
war has interfered with Emperor  
Hirohito's equestrian activities.  
The famous white horse is get-  
ting fat in the stable because his  
myopic majesty is too busy with  
other things to give him his accus-  
tomed exercise.

"Practically every day," said a  
Tokyo broadcast, "his majesty  
summons the premier and other  
ministers to the palace, patiently  
listens to their reports on the war  
and graciously asks questions. It  
is rare now for the emperor to  
find leisure for horseback riding."

It's certainly a sad state of af-  
fairs and the Tokyo radio is really  
bloodthirsty about the price to be  
exact because of it. The only  
thing to do, according to the  
broadcast, is "totally to annihilate  
the enemy." The Tokyo radio  
does not explain how to annihilate  
a foe less than totally.

Most Americans aren't quite  
so extreme as that. Most Amer-  
icans wouldn't advocate "total  
annihilation" of the enemy—un-  
less the Japanese themselves in-  
vite such a fate by refusal to sur-  
render in a hopeless struggle.  
Most Americans wouldn't even  
oppose letting the emperor con-  
tinue his horseback riding.

They probably would be in-  
clined to give him one final can-  
ter—to a date with his ancestors.  
And anyway, Admiral Halsey  
wants to ride the white horse in  
the victory parade.

### MORE RESEARCH NEEDED

It isn't necessarily the diseases  
which kill the most people that  
have the most money spent on  
them in the research laboratories.

Approximately three times as  
many persons die of heart and  
artery diseases as die of cancer,  
the second greatest killer, and yet  
foundation grants for the last year  
for which statistics are available  
amounted only to 17  
cents for each death from these  
causes compared to \$2.18 for each  
death from cancer.

These figures are from an an-  
nouncement by M. Albert Linten,  
chairman of the joint Medical  
Research Committee of the Amer-  
ican Life Convention and the Life  
Insurance Association of Amer-  
ica. His announcement dealt  
with plans for establishing a  
\$500,000 annual fund for medical  
research mainly in the field of  
heart and artery diseases. Two  
hundred insurance companies are  
represented in the convention and  
the association.

It has been said previously  
that research into cardio-vascular  
diseases lags behind research into  
other maladies as far as funds al-  
lotted for the purpose are con-  
cerned. It is to the credit of the  
groups here mentioned that they  
plan to do something about the  
discrepancy.

After the war, will it be nec-  
essary to pay a dole to all those  
trained observers left with noth-  
ing to observe?

Little of Himmler's hoarded  
wealth was in German currency.  
Those Nazis did not seem to re-  
gard that idea of 1,000 years of  
strength through joy too seri-  
ously.

## ECHOES OF THE PAST

(By Courier Staff Member)

Review of the news as it appeared in the Bucks County Gazette  
issue dated at Bristol Feb. 12, 1885. The Gazette, a weekly news-  
paper published in Bristol, was discontinued following its merger  
with the Courier.

The annual meeting of the Bris-  
tol Cemetery Co. was held on last  
Saturday. The old board of direc-  
tors was elected with the exception  
of Lawrence Johnson, resigned.  
William Blackwood was chosen to  
fill his place. There were 24 lots  
sold last year, and 28 interments  
made; the total number of inter-  
ments are 55.

On Sunday night as the proprie-  
tor of the horse and sleigh that has  
been used in the transportation of  
passengers across the river between  
Bristol and Burlington was taking  
his horse ashore, the ice broke and  
the animal was drowned.

The prize of a silver badge for  
the most graceful lady skater was  
carried off by Miss Oliver Highland  
at the rink on Thursday evening  
last.

John L. Johnson and Benjamin  
Johnson have purchased the stock  
of clothing etc., belonging to  
George W. Allen's Estate, and will  
continue the business at the old  
stand on the corner of Wood and  
Mill streets.

Preparations were yesterday  
made to bury a resident of Bristol,  
recently deceased. The body was  
properly cleansed, and afterwards  
left for a short time without atten-  
tion. Whether on account of the  
cold, an extra fire was kept going,  
and the room thereby unusually  
heated, or not, we do not know.

In a little while a cry was  
heard from the supposed corpse,  
and the startled attendants, on  
rushing into the room, found strong  
evidence of life. The best attention  
was given to the so strangely re-  
turned one, with every hope for  
ultimate success.

(Following Items from Bucks Co.  
Gazette, issue of February 19,  
1885.)

In the matter of the peculiar case  
of suspended animation, referred to  
last week, we neglected to state  
that the subject was a pet chicken  
which was found apparently frozen  
dead, and which the children of  
the household determined to bury  
in proper form. After washing it  
under the hydrant for some time  
they placed it in an empty cigar  
box, near the fire to dry, and were  
very much astonished to find in a  
short time signs of returning life,  
which continued to assert them-  
selves until the chicken was as  
lively as ever, and apparently as  
strong.

On Wednesday afternoon a new  
building association was formed.  
A meeting of those interested was  
held in the office of A. Weir Gilke-  
son, Esq., and by-laws adopted, and  
officers elected. The name selected  
is the Fidelity Building Association.  
James Wright was chosen presi-  
dent; A. Weir Gilkeson, secretary;  
and Robert Rogers, treasurer.  
These gentlemen, with C. S. Bailey,  
William Blackwood, George A.

Shoemaker and Harold Peirce form  
the board of directors.

The election in Bristol Township  
resulted as follows: Justices of the  
peace, John R. Stackhouse, James  
E. Magill, constable, P. B. Wright;  
supervisors, E. B. Minster, John B.  
Brown; assessors, Edward Baker,  
John Burton; overseers of the  
poor, Edward B. Minster, John B.  
Brown; school directors, S. Head-  
ley King, W. Q. Bunting; town  
clerk, William Rue; treasurer, Ed-  
ward Minster.

The death of Mrs. Margaret  
Swain occurred on Thursday last.  
She was in the 95th year of her age,  
and was the oldest person living in  
Bristol.

### Discussion Forum To Be Held in Bensalem

"Our Part in Winning the Peace"  
will be the topic for discussion at  
a community forum to be held in  
Mrs. Teresa Gallagher, Mr. and  
a community forum to be held in  
Mrs. Teresa Gallagher, Mr. and

Bensalem Methodist Church social  
hall tomorrow evening. The pro-  
gram will include the showing of a  
number of short sound motion pic-  
tures dealing with the subject of  
peace and the establishment of a  
world organization to prevent war.  
C. Burnley White, Cornwells  
Heights, is to act as leader of the  
open discussion, following the  
showing of the films. The meet-  
ing is being planned not as a for-  
mal presentation by any outside  
authority, but rather as an in-  
formal opportunity for residents of  
lower Bucks County to participate  
in an active consideration of the  
problems of winning the peace and  
making sure that this is the last  
world war.

The World Peace Committee of  
the Bensalem Methodist Church is  
arranging for this community  
forum as part of a nation-wide  
campaign to develop an under-  
standing of and a lively interest in  
the issues raised by the United  
Nations Conference on International  
Organization now being held at  
San Francisco, Cal. The first forum  
which was held at the Church so-  
cial hall a month ago on the sub-  
ject of "World Food Production"  
was so successful that the commit-  
tee decided to hold a second forum  
on the subject of "Winning the  
Peace."

tetter, farmer living near Kress,

water. What Hostetter thought to  
be a joke was really the truth. He  
had left a gallon glass water-jug  
on his front porch about a foot

## Today's Quiet Moment

By Rev. Edward G. Yeomans  
Pastor  
Bristol Presbyterian Church

Almighty and eternal God and Father, have mercy upon us and upon this country of ours, now at war; and upon all who are taking part in its defense. Help us to be true and just in all our deliberations and dealings, patient in all of our perplexities, calm in all of our fears, diligent in all our duties and honest in all our devotions, so that nothing may stain our arms, hinder our task, or dim our vision of Thee. Strengthen our faith in men. Help us to retain our charity for friend and foe. Grant us a righteous peace in soul and state. Help us to serve and love Thee, our God, with a quiet mind and confident spirit. Above all, keep us good soldiers of Jesus Christ, now and forevermore. Amen.

LONDON—(INS)—Because of the high content of hydrogen sulphide gas in the air of Philadelphia during the summer months, commanding officers of British warships calling there in the hot weather have been told to see that special measures are taken to protect gold

lace, badges and buttons against deterioration. In a British Admiralty Fleet Order just issued, they are advised to paint lace, buttons and badges with banana oil or varnish such as colorless nail polish.

**Voltz Team and Fleetwings Are Scheduled in Game on Leedom's Field**

### PIUMA ON THE MOUND

**Dick or Shackleton Likely To Hurl for The Arrows, It is Stated**

The two locals rivals of the Trenton Industrial League will cross bats tonight on Leedom's field when the second-place Voltz-Texaco nine meets the Fleetwings Arrows. Game will begin at 6.15 o'clock.

The gasoliers have won eight and lost three during the season and have played two tied games. Fleetwings' record stands at two wins and seven losses. They are in fifth place but stand a good chance of advancing as the Eastern Aircraft nine has lost eight games in winning five.

Herm Pluma will hurl against the Voltz batters with Mitchell behind the plate. There is a likelihood that either Johnny Dick or Hal Shackleton will do the hurling for the gasmen.

This promises to be a busy week for the local teams as Fleetwings is again home tomorrow night meeting the J. A. Roebeling team. The Roebeling team comes back here Wednesday evening to play Voltz-Texaco. Fleetwings plays Eastern Aircraft at Trenton, Thursday evening, and next Sunday, the Voltz team will travel to Trenton to play Eastern Aircraft.

## Motor Car Owners Must Safeguard Their Cars

Secretary of Revenue David W. Harris at Harrisburg warned Pennsylvania motor vehicle owners today that only by extraordinary vigilance against mechanical breakdown can thousands of cars be saved from the junk yard this year.

In a statement stressing the importance of the current official inspection period which ends July 31, Secretary Harris said:

"We have now reached the danger peak for car owners. The average age of the motor vehicles on our streets today is between eight and nine years. That is about double the normal life of any car. Only extreme care could have kept

as many cars on the road as there are today. Now, care must be extended to the utmost to preserve a fair portion of our rolling stock for another year at least. It will be that long and probably much longer before an adequate supply of new cars will be available.

"Today thousands of cars are headed toward the junk yard. Many of them can be saved if owners have them checked for defects that can be repaired. That is why it is vital for every car owner not to delay in taking advantage of official state inspection. It is going on now. The current period closes definitely at midnight, July 31. Don't wait until the last minute. There will be no time extension. Have your car inspected now. It may not only save the vehicle but lives as well."

ing and supervision. Miss Bright, who cited a number of juvenile cases in the county, emphasized the responsibility of parents and their attitude toward children and their conduct.

According to Miss Bright, 265 cases were brought into court the past year, and 195 children were placed in suitable foster homes. These homes are carefully investigated before placing children in them.

Commenting upon the importance of religious training, Miss Bright declared in a majority of the cases where children get into trouble the parents are indifferent to church attendance and all religious contacts.

A business meeting of the society was conducted in the morning by the president, Mrs. H. Roy Buckner, who also had charge of devotions. Flowers were reported sent to the sick and shut-ins during the past month, and letters of appreciation were read by the secretary. The society decided to make a contribution of \$5 to the Emergency Hospital.

The next meeting will be held at the home of Mr. and Mrs. J. Earle Yerkes, Doylestown, R. D., and the business meeting in the afternoon will be followed by a picnic supper for members and their families.

miles per hour. As the machine rounded the curve just north of the canal it struck a telephone pole and snapped it off. Then the car went partially up onto the sidewalk for a distance of about 400 feet, rammed the rear of a sedan owned by James Van Cleve which was parked in front of his residence, No. 11 Green Lane. The rear of the Van Cleve car was pushed in like kindling wood. The coupe, completely out of control of the driver, dashed across the roadway, dropped down the embankment at an angle and ploughed across the field for a distance of 400 feet and then came to a stop, still on all four wheels.

The right side of the coupe was smashed completely, the front damaged and the windshield shattered. After the car dropped down the embankment Stibitz was either thrown out or fell out, as the door on the right side flew open. Both men were conscious when they were picked up by people attracted to the scene. Stibitz's arms were put in splints by members of the Rescue Squad. Stibitz is a big man, weighing some say, 300 pounds. "I'm heavy," he told those who picked him up, and as he was placed in the ambulance he said "This is the first time I ever rode in a car like this."

Both men are employed at Fleetwings Plant No. 2.

well-known Bucks county attorney, gave short discourses. The former spoke on "The Christian Flag," while the latter took "The American Flag" as his topic.

Mr. Kilcoyne in his oration eulogized the American flag and carried his audience to heights of patriotism.

The Rev. Haas lauded the Christian flag and said "You cannot respect the American flag without honoring the Christian flag."

In conducting its ritualistic service in memory of Lt. Hampton the Elks presented the family with a certificate and a medal of valor. The lodge officers participated in the service. A photograph of Lt. Hampton in a plexiglas frame was upon a table back of the altar rail and illuminated. This photograph formed the center for the ritualistic service.

There was a clock which struck "11" as the auditorium of the church was darkened and taps were sounded by buglers of the Legion Cadets. As the audience sang "America" the color bearers and color guards of the cadets carried in the American flag and also a brace of flags of the allied nations.

Mrs. Lee VanGilder and Mrs. Warren Jennings sang a duet, "The Vacant Chair." Other selections were given by the choir.
